Home/Cell Phone _____ - _____ - _____

Graduation Year _____

A student who qualifies according to the following criteria and continues an education at an A+ approved Missouri public community college or vocational-technical school may be eligible for state reimbursed tuition and general fees for up to two years within four years after graduation, contingent upon state appropriation and allocation of funding, and Kirkwood High School maintaining designation. Each student should enter into a written agreement with the school prior to high school graduation. To be eligible, the student must:

- Be a US Citizen or permanent resident.
- Attend a designated A+ School for two consecutive years prior high school graduation.
- Graduate from high school with a cumulative grade point average of 2.5 (a 2.4999 GPA is not eligible) or higher for all four years of high school.
- Maintain at least a 95% cumulative attendance record for all four years of high school.
- Perform a total of 50 hours of unpaid academic tutoring or mentoring of other students under the supervision of a certified Kirkwood School District employee within the four years of high school. Up to 25% can be obtained by job-shadowing. ALL TUTORING MUST BE APPROVED BY THE A+ COORDINATOR.
- Must have achieved a score of proficient or advanced on the Algebra I end-of-course exam or higher level DESE approved exam in the field of mathematics. If you meet all the eligibility requirements except the end of the course exam requirement, you may establish eligibility by achieving a combined ACT math subscore and high school GPA in accordance with the scale provided by DESE.
- Maintain a record of good citizenship and avoidance of unlawful use of alcohol and drugs.
- The student's financial incentive is contingent upon state appropriation and allocation of funding and Kirkwood High School maintaining designation. Dependent on said, it may be available for two years of six semesters within four years after high school graduation. To be eligible for the A+ tuition reimbursement during that time, each participant must:
- Make a documented good faith effort to secure available federal post-secondary student financial assistance funds that do not require payment (FAFSA application must be completed and mailed to the school that the student is planning to attend.)
- Enroll and attend a Missouri public community college or vocational school on a full-time basis and maintain a GPA of 2.5 or higher.
