Welcome from Superintendent

August 1, 2019

Dear Parents/Guardians:

I am so excited to welcome you back for the 2019-2020 school year. We have been working hard all summer to prepare for our students and are confident that this year will be filled with learning and growth.

We are very proud of our tradition of excellence and our work in meeting the needs of every student. From assessing, instructing, adapting and celebrating, we work hard to provide learning opportunities for each child. The relationships we strive to build with our children and each family provide the framework needed to ensure success for every one of our students.

It is through our connections with each other that we are able to provide the learning environment your child needs. Please stay in communication with your child's teacher(s), counselor, and school/class principal. Get involved, participate in school events and engage in conversations with your child about school. Working together we will achieve our mission of instilling a sense of "wonder, connection and joy" for our students. Enjoy this school year!

Sincerely,

Dr. Michele M. Condon
Superintendent of Schools

District Mission & Vision

It is not by accident that students are at the heart of our Mission and Vision statements. Their success, now and in their future, is what drives us each and every day.

Our Mission: Students of the Kirkwood School District will think critically and creatively, driven by a sense of wonder, connection, and joy.

Our Vision: Working together, we will ensure all students are prepared for success – now and in their future.

The Student Experience

We live in a world that is changing rapidly. Large numbers of our students will someday work in careers that have yet to be invented, and many are already doing things – in and out of school – that previous generations would have thought not possible. Skills necessary for success in the workplace are different now than they were only 5-10 years ago. We have an obligation to prepare students for this changing world – even if it requires us to think differently about school structures and practices that may be outdated or obsolete. The student experience in the Kirkwood School District must be fundamentally better than ever before.

Our students will...

- Feel supported through positive relationships, with knowledge that others care about them, their interests, and their success
- Be happy, healthy, and have equitable opportunities to succeed
- Discover, wonder about, and solve complex problems, independently and with others
- Effectively use critical and creative thinking strategies; tinker/play with newly formed ideas to test their validity
- Collaborate with others, in person and digitally, and communicate with a range of audiences for a variety of reasons
- Actively question, explore, and apply thinking through rigorous learning, within and across disciplines and in authentic situations

Areas of Focus

Three broad areas of focus - **Fostering a Culture of Collaboration, Equity & Innovation, Educating the Whole Child, and Developing Future-Ready Skills** – are key to all we do in the Kirkwood School District. Each area is essential in its own right and fundamentally related to the overall pursuit of our mission and vision. School should require hard work – for students and teachers – but it should not be a chore for anyone. Every child deserves opportunities to think critically and creatively about real issues, engaged in *their* learning and driven by a sense of wonder, connection, and joy. Student thinking must be the currency of our classrooms.

Educator John Dewey wrote in 1893 that we must “cease conceiving of education as mere preparation for later life, and make it the full meaning of present life.” One hundred eighteen years later, Ken Robinson added, “Thinking of education as preparation for something that happens later can overlook the fact that the first sixteen or eighteen years of a person’s life is not rehearsal. Young people are living their lives now.”

The Kirkwood School District recognizes the importance of standardized test scores and we understand the need for students to be “college and career ready” for whatever may come after graduation. These typical measures are not enough, however, and they alone should not dictate our work with children.

Working over the course of twelve months – with input from well over a thousand students, teachers, parents, and community members – we identified 17 key indicators that define future-ready in the Kirkwood School District. The indicators are organized into five categories and can be explored in more detail here.

Future-Ready Learners...

What does it mean to be a future-ready learner in the Kirkwood School District?

We believe our graduates must be prepared for a rapidly changing world and workforce, ready for success in college, career and civic life. They must also, however, be actively engaged in living a full life in the here and now.

Wellness, Joy, & Hope

- Are physically and mentally healthy, prepared to live a lifestyle of wellness
- Possess the confidence and adaptive skills to take risks, work hard, and be resilient in the face of challenges

- Use visual and performing arts to inspire thinking, communicate ideas, and better understand the world around them

Connection & Collaboration

- Build and maintain healthy relationships, demonstrating kindness, respect, character, and integrity
- Serve as empathetic learners and leaders, with the ability to understand others’ needs and the potential impact of their actions on those around them
- Are skilled at working with others – in person and via technology – to collaborate around ideas, accomplish tasks, and advance new learning

Flexible Thinking

- Think critically and creatively about ideas to find and solve problems across a wide range of situations
- Leverage technology flexibly to access information, collaborate, make/create, and communicate ideas
- Capitalize on mistakes and failures to advance thinking, learning, and understanding
- Use design thinking and iteration to explore complex issues
- Manage cognitive load to effectively process new information

Disciplinary Literacy & Application

- Read, write, and question to actively understand and discern ideas, within and across discipline
- Apply knowledge from multiple disciplines to new and unpredictable situations
- Actively make sure of media literacy and digital citizenship skills

Literacy – Numeracy – Scientific Literacy
 Financial Literacy – Cultural & Civic Literacy

Global Citizenship

- Serve as global citizens, with an appreciation for diverse cultures/ideas and a commitment to inclusion and equity
- Engage in efforts to improve one’s community – locally and globally – through service, advocacy and civic responsibility
- Serve as stewards of our environment, with a sense of connectedness to and responsibility for our planet

School life, for Kirkwood student, is not a dress rehearsal.

Board of Education

As elected representatives of the citizens of the Kirkwood School District, the Board of Education serves as the governing body for the community’s public school system. The seven-member school board approves district policies, selects the superintendent of schools, adopts the annual budget, and determines the tax rate. School board elections are conducted annually in April. In accordance with state law and district policy, a school board election is not held if the number of candidates who file is equal to the number of positions to be filled by the election. Board members serve three-year, over-lapping terms and receive no salary. Although individual members may hold different viewpoints, the Kirkwood Board of Education is united in its commitment to serving children.

Meetings

Kirkwood School District residents are welcome to attend regular Board of Education meetings which are open to the public and held in the district's Administrative Services Center (ASC), 11289 Manchester Rd. Regular meetings begin at 7:00 p.m. and are generally scheduled on the first and third Mondays of each month during the school year and once a month during the summer. The Board of Education may also conduct executive session meetings, which are closed to the public in compliance with Missouri "Sunshine Laws." Closed meetings are usually restricted to student, personnel, property, or legal matters. Occasionally special meetings or board workshops are held in public view at times other than the regularly scheduled meetings.

Agenda

Agendas for the regular meetings are prepared by the superintendent of schools in consultation with the president of the school board. Agendas also available on the district's website (www.kirkwoodscols.org). After board approval, copies of the minutes of each board meeting are available in the Office of the Superintendent, the Kirkwood Public Library and on the district's website.

Addressing the Board

Time is allotted at the start of each regular meeting for the public to address the board on specific agenda items or to comment on non-agenda items. Because board meetings are formal meetings held in public view, rules of order are followed and time restrictions are placed on discussions. The president of the board is responsible for managing the time allowed for public discussion, the appropriateness of the subject, and the amount of time allowed individual speakers. Residents who wish to make public comment are asked to complete a "Request to Address the Board" card available at the meeting and to present it to the clerk before the start of the meeting. Speakers are also asked to provide copies of their written remarks for distribution to board members and the administration. In general, the Board of Education does not act immediately upon requests put before it from the floor. Often such matters are referred to the superintendent for study and appropriate follow-up.

Contacting the Board Members

To express their views in less formal settings, Kirkwood School District residents are welcome to contact board members by mail in care of the district offices, 11289 Manchester Rd., Kirkwood 63122-1122. Residents may also email board members through the district's website at www.kirkwoodscols.org.

The Kirkwood School District is committed to working with parents to meet the educational needs of all of our students. A variety of special services are available in our schools to assist students whose educational needs require supports beyond what is typically provided within the general classroom.

Your child's classroom teacher is the first person you should contact for guidance on how we can best work together to support your child's educational needs. Other key building staff include your child's counselor, school nurse, principal and assistant principal. If your child is already participating in a special program, or if you believe your child may be in need of special services, you should contact your child's classroom teacher, counselor or principal for assistance.

Special Education Parent Advisory Council

The Kirkwood Special Education Parent Advisory Council (PAC) was developed to provide professional and supportive connection among parents and school staff who share an interest in promoting the education of children

with disabilities. Each school has several parents who represent their school on the district-level PAC. These parents also work with their school to support families of students with special needs. Kirkwood's district-level PAC meets several times each year to share information and seek input from parents on district planning for special education and related supports for students.

If you would like more information regarding PAC, please contact your SSD area coordinator.

Section 504

Section 504 of the Vocational Rehabilitation Act of 1973 prohibits recipients of federal funding from discriminating against individuals with disabilities. This Act is a non-discrimination law that also guarantees students with disabilities access to a free appropriate public education. Section 504 requires schools to provide all individuals an opportunity for meaningful participation in district programs & facilities.

In order to qualify for non-discrimination protection under Section 504 of the Vocational Rehabilitation Act, an individual must:

1. Have a mental or physical impairment which substantially limits one or more major life activity.
2. Have a record of such impairments.
3. Be regarded as having such an impairment.

If you have a child or know of a student who may be eligible under Section 504, contact the student's school counselor or school administrator.

MTSS Interventions

MTSS Interventions provide additional supports for students

Screenings, assessments and focused instruction help students meet academic and social/emotional goals.

The Kirkwood School District (KSD) promotes student success through collaborative teamwork that enables each student to learn at their full potential. This process MTSS (Multi Tiered Systems of Support) uses information gathered through classroom observation and assessments to determine how our staff can work toward meeting each individual child's needs. The MTSS process provides multi-tiered levels of support around academic, behavioral and social/emotional goals that include:

1. High-quality classroom instruction (Tier I)
2. Regular universal screenings
3. Curriculum-based and diagnostic assessments
4. Frequent progress monitoring
5. Interventions that support student needs (Tier II and III)
6. Ongoing communication with families about student progress toward goals

Each student's academic achievement is consistently monitored by the teacher and, as necessary, the MTSS Team. If a student requires additional intervention, the team supports the student using Tier II and/or Tier III instruction. The MTSS Team and the classroom teacher closely monitor the child's progress.

All students are engaged in high-quality instruction in the general education classroom. In addition, the multi-level intervention is a dynamic process which allows a student to receive Tier I, Tier II and Tier III instructional supports as necessary.

Our MTSS data-based decision making model leads to increased collaboration and improved student outcomes for each individual learner.

Childfind notice: If at any time you believe your child has a need for special education or Section 504 services, please contact your school counselor.

English Language Learner (ELL) Program

Kirkwood School District strives to provide equal educational opportunities for all students in the district. The Kirkwood ELL Program exists to serve the needs of Limited English proficient (LEP*) students who are unable to participate effectively in academic programs due to their LEP status. In order to support these students in developing the skills necessary to achieve challenging performance standards in a regular classroom, the administration has established procedures which:

1. appropriately identify and evaluate English Language Learners
2. determine the appropriate instructional environment for ELLs
3. monitor the progress of students receiving ELL instruction in order to determine continuation and level of need of ELL services
4. establish professional standards for ELL staff members and provide development opportunities for staff members who work with ELLs
5. where feasible, the district may provide support for the students' use of the native language while developing English language skills

* Limited English Proficient students (or English Language Learners) are those whose native/home language is a language other than English and whose English language skills of listening, speaking, reading and writing are not developed to a level at which they can achieve challenging performance standards in a regular classroom.

If you would like more information, please contact Amy Stephens (District ELL Coordinator) at amy.stephens@kirkwoodschoools.org or 314-213-6100 extension 3046.

Gifted Program

Kirkwood School District strives to provide equal educational opportunities for all students in the district. The Kirkwood Gifted Program exists to serve the needs of students who possess significantly advanced knowledge, critical and creative problem solving, and highly developed learning capabilities. These learners demonstrate the capacity to handle curricular content at a rapid pace and at advanced levels of abstractness, complexity, and independence. This program is referred to as REACH in grades K-5 and SOAR in grades 6-8. In order to support these students in achieving their personal goals and academic success for which they are capable, the KSD will do the following:

1. appropriately identify and evaluate Gifted learners
2. determine the appropriate instructional needs and environments
3. monitor the progress of students receiving Gifted instruction in order to determine the appropriate Level of Services
4. establish professional standards for Gifted staff members and provide development opportunities for staff members who work with Gifted students

If you would like more information, please contact your building Gifted Specialist or the Assistant Superintendent for Data, Intervention and Supports: Dr. Matthew Bailey at matt.bailey@kirkwoodschoools.org or 314-213-6100 ext. 7819.

Alternative Education Opportunities

In the Kirkwood School District, nontraditional and alternative programs serve students who require or thrive in an environment other than a traditional educational setting. This population of learners may face challenges in school, home, and community. As a result, their ability to access services in the traditional setting may be at-risk. Nontraditional and alternative education programs deliver innovative 21 Century approaches to teaching and learning which provide students with the opportunity to meet graduation requirements, engage in college and career readiness, and participate as productive members of their communities.

Educational Support Counseling Services

The Educational Support Counseling program is a partnership between Kirkwood School District and BJC Behavioral Health. The partnership was formed to support the early intervention and short term mental health needs for Kirkwood School District students from kindergarten age through grade 12. At this time, six Educational Support Counselors serve the Kirkwood School District. This is possible through a grant from the St. Louis County Children's Fund. The ESC is a licensed professional counselor or licensed clinical social worker. Services include crisis intervention services, direct counseling, case management services, referral to community resources, small and large student-topic groups, staff and parent education on mental health issues, and consultative services to teachers and administration on individual student needs. ESC services are designed to be short-term support interventions. If you have any questions or would like to make a referral to the ESC program, please contact your school counselor.

Referral Procedures for ESC Services

Should a student, parent, teacher, support staff and/or administrator identify a concern about a student's well-being, a referral for ESC services can be initiated using the following procedures:

1. Contact the school counselor who will assess the need for ESC support.
2. The school guidance counselor will then make the referral to the designated ESC.
3. The ESC will make contact with the student and/or family to initiate services.

Social Emotional Learning Coaches

The Kirkwood School District employs 3 Social Emotional Learning Coaches whom work within our schools to provide coaching and partnership to teachers who are dealing with challenging social and emotional related behaviors within their classroom environments. These certified teachers have experience and training to assist their peers in identifying root causes and identifying research-based intervention protocols. Their role is to deepen the toolbox of the teacher and build confidence for future implementation.

Social Workers

District Social Workers are trained mental health professionals who work within the school setting to strengthen the social/emotional well-being of all students in order to enhance academic and personal goals. Kirkwood School District employs three social workers: one assigned to Kirkwood High School and alternative education, one assigned to North Kirkwood Middle School (NKMS) feeder pattern and one to Nipher Middle School feeder pattern.

A District Social Work Referral Form, available through the building level administrator or counselor, is completed for referral to social work services. A student should be referred to the school social worker when the student shows signs of social and/or emotional difficulties that are interfering with the student's success at school, and all appropriate interventions available by the on-site staff have been attempted.

Educating Missouri's Homeless Children

The McKinney-Vento Act guarantees homeless children and youth an education equal to what they would receive if they were not homeless.

Who is Homeless?

According to the McKinney-Vento Act, homeless children and youth include individuals who lack a fixed, regular and adequate nighttime residence. This includes the following situations:

1. Sharing the housing of others (known as doubling-up) due to loss of housing or economic hardship
2. Living in motels, hotels, trailer parks or camping grounds
3. Living in emergency or transitional shelters
4. Abandoned in hospitals
5. Living in a nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation
6. Living in cars, parks, abandoned buildings, substandard housing, bus or train stations, or similar settings

The McKinney-Vento Act also recognizes unaccompanied youth who are homeless. According to the act, an unaccompanied youth is a youth not in the physical custody of a parent or legal guardian.

Which School Can a Homeless Child Attend?

There are two choices for a student in a homeless situation — the school of origin and the school of residency. The school of origin is the school the child attended when permanently housed or the school in which the child was last enrolled. The school of residency is the school serving the area where the child or youth is currently physically dwelling. When determining the school of best interest, a homeless child or youth should remain in the school of origin (to the extent feasible) unless doing so is contrary to the wishes of the parent or guardian or to the wishes of the unaccompanied youth.

Enrollment

The McKinney-Vento Act requires the immediate enrollment of homeless children and youth. These children must be allowed to attend school even if they are unable to produce previous academic records, immunization and medical records, proofs of residency, birth certificates, or other documentation that is usually required.

Transportation

School districts must provide transportation for homeless children and youth to the school of best interest. Districts must also provide transportation during the resolution of any pending disputes. While disputes over enrollment, school selection or eligibility are being resolved, students must be transported to the school of choice of the parent or the unaccompanied youth.

The Homeless Liaison

A school district's homeless liaison plays a vital role in ensuring that children and youth experiencing homelessness enroll and succeed in school. The McKinney-Vento Act requires that every school district appoint a homeless liaison who serves as the link between homeless families and school staff, district personnel, shelter workers, and social-service providers.

If you would like more information, please contact Dr. Shonda Ambers-Phillips, District Homeless Liaison at shonda.ambers-phillips@kirkwoodschools.org or 314-213-6105.

Parent/Guardian Notice of Electronic Communication with Students Form

Kirkwood School District Parent/Guardian Notice of Electronic Communication with Students

Staff members of the Kirkwood School District recognize there are advantages to communicating with students for educational purposes using a variety of effective methods, including electronic communication. When communicating electronically with students, staff members are required to use district-provided devices, accounts, web pages and social networking sites when available.

Some staff members are given permission to communicate with students on a limited basis using the staff member's personal telephone numbers, addresses, web pages or accounts (including, but not limited to, accounts used for texting) for the purpose of organizing or facilitating a district-sponsored class or activity (for example, text messaging students participating on an athletic team or on a field trip).

To facilitate these authorized communications, your student may be asked to provide his or her contact information to staff members to use to communicate with your student. This information includes, but is not limited to, your student's mobile phone number, and e-mail address.

The district's policies, regulations, procedures and expectations regarding in-person communications at school and during the school day apply to electronic communications for educational purposes, regardless of when those communications occur. Reunification Letter

PLEASE READ THE FOLLOWING FROM OUR DIRECTOR OF SAFETY AND SECURITY:

Dear Parents:

KSD is constantly working to make sure that your children are safe when they are at school. To that end, there are many plans and systems in place to protect your children in any case of emergency. One of these mentioned plans is our parent-student reunification plan.

*Our parent-student reunification plan is used if it becomes necessary to relocate the entire school population to either of our two alternative sites. Such a move will take place when it is determined by school and or district administration that keeping students in the school would be hazardous to them and staff. When you are notified of the activation of our parent-student reunification plan, you will be told where the students have been transported. **SPECIAL NOTE:** Out of concern for the safety of operations, and the security of your student(s), the alternate locations will remain confidential until such a time disclosure is needed*

If it becomes necessary to activate our parent-student reunification plan, parents will receive a text message, email, and phone call with information and directions. It is critically important that your respective school's office staff have all current phone numbers and email addresses so that we are able to contact you at any time during the school day in the event of an emergency.

When you arrive at the alternative site to pick up your child, there will be five stations: A thru C, D thru G, H thru L, M thru R, S thru Z. Please report to the station that has the first letter of your student's last name. Give the station worker your child's name and present a **picture I.D.** that is a match to a name on the emergency contact list.

Once you have been identified, your child will be brought to you at the reunification station.

All individuals picking up students **must provide valid identification** and be **positively identified by our staff**. Unless a person's name is on our emergency contact list as having your permission to pick up your child, we will not release your child to them. Student safety is the primary concern for the Kirkwood School District. We appreciate your support and assistance in this important matter.

Sincerely,
Levaughn Smart, CPP
Director of Safety & Security
Kirkwood School District R-VII

Weather Emergency Information

Electronic Messaging System:

Parents/guardians will receive a phone call, text message or e-mail through the district's electronic messaging system. This system enables school personnel to notify all households and parents by phone, text message or e-mail in the event of a school cancellation, late start or emergency. The phone calls automatically deliver a recorded message to all listed phone numbers on the district's parent contact lists.

It is important for parents to provide their child's school with current home and work contact information.

Senate Bill 319

Dear Kirkwood School District Parent/Guardian,

As we begin this new school year, I am writing to share with you the specific expectations for reading achievement established by **Senate Bill 319** for all children in Missouri. Students in grades three through six are affected by this law in the following ways:

Third Graders

- The reading level of students must be determined before the end of their third grade year.

Fourth Graders

- An additional 30 hours of reading instruction must be offered outside of the regular school day to all fourth grade students reading more than one year below grade level. These students may be required to attend summer school.
- Students reading more than one year below grade level at the end of grade four will be required to attend summer school. If, by the end of summer school, they are still reading more than a year below grade level, they must be retained in the fourth grade and continue to receive additional reading instruction.

Fifth and Sixth Graders

- Fifth and sixth grade students reading more than one year below grade level must:
 - (1) Be tested annually
 - (2) Have a reading intervention plan, and
 - (3) May be required to attend summer school
- If, by the end of sixth grade, a student is still reading more than one year below grade level, the law requires that this information be recorded in the student's permanent record file for as long as the student reads below grade level.

Students who are exempt from Senate Bill 319 requirements:

- Students with disabilities receiving IEP based special education services;
- Students with Section 504 Accommodation Plans which specifically address reading;
- Students with Limited English Proficiency;
- Students whose cognitive ability appears to limit reading development.

The Kirkwood R-7 School District is committed to strong reading achievement on the part of all students. We are proud that most of our students score well on the reading portion of the Missouri Assessment Program (MAP test) as compared to other students in the state. It is also true that some students have not yet achieved the expected levels of reading achievement we seek for all. Therefore, we are committed to offering reading intervention services for all students, including those who are exempt from Senate Bill 319 requirements.

In response to Senate Bill 319, the staff of Kirkwood R-7 School District will:

- Determine the reading levels of all students during the first quarter of each school year using a variety of reading assessments.
- Notify parents by the end of the first quarter if their child is identified as a below grade level reader.
- Develop an appropriate reading intervention plan for every below grade level reader and provide research-based and meaningful reading instruction.
- Monitor the reading progress of all students and keep parents informed about their child's development of reading skills.

If your child's instructional reading level is assessed to be more than one year below grade level, the literacy specialist or special education teacher will notify you of the recommended reading intervention services. Specific information about your child's reading achievement will be shared with you during parent conferences. Thank you for your on-going support as we work to provide the best for every R-7 student.

Sincerely,

Dr. Bryan Painter
Assistant Superintendent for Curriculum and Instruction

House Bill 2379

The Kirkwood School District is committed to working with parents to meet the educational needs of every student. A variety of special services are available in our schools to assist students whose educational needs require supports beyond what is typically provided within the general classroom.

House Bill No. 2379 was passed in 2017 to ensure all school districts conduct early screening to identify children with deficits in basic reading skills or dyslexia.

In Kirkwood, we have been screening all students for basic reading skills starting with kindergarten for many years. When indicated, we conduct an in-depth evaluation for an understanding of each student's unique needs and provide interventions as appropriate.

We understand that dyslexia is an important issue for many parents, and we are always available to answer any questions you may have. Your child's classroom teacher is the first person you should contact for guidance on how we can best work together to support your child's educational needs. Other key building staff also include your child's counselor, school nurse, principal and/or assistant principal.

Annual Notifications/Student Records - FERPA

The protection of student rights has always been a top priority of the Kirkwood School District. This document is distributed annually to all parents and students in order to comply with state and federal requirements to notify the parents/guardians and eligible students of their rights with respect to the student's educational records.

In general, a student's educational record includes any information maintained by the school district, which contains information directly related to a student. A major exception would be a personal record kept by a staff member if it is kept in the sole possession of the maker of the record and is not accessible or revealed to any other person except a temporary substitute for the maker of the record.

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records. Parents or eligible students should submit to the school principal a written request that identifies, as precisely as possible, the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the school to amend a record that they believe is inaccurate or misleading or in violation of the student's privacy. They should write the principal or appropriate official, clearly identify the part of the record they want to change and specify why it is inaccurate or misleading. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment.
3. The right to consent to disclosure of personally identifiable information contained in the student's education records except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member; a person serving on the School Board; a person or company with whom the school has contracted to perform a special task; or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her

professional responsibility. Upon request, the school discloses education records without consent to officials of another student district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school with the requirements of FERPA. The name and address of the office that administers FERPA is the Family Policy Compliance Office U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605.
5. Directory Information may be released by school officials. This includes print and electronic publications of the school district that, if disclosed, would not be considered as determined by the Kirkwood School District as harmful or an invasion of privacy. This information may be released without prior written consent to parent and student organizations for marketing purposes; such as for “buzz” books produced in the fall, and to outside organizations including, but not limited to, companies that manufacture class rings or publish yearbooks in the spring. In addition two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories – names addresses and telephone listings – unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent. Such information is also considered a “public record” which must be released upon demand to any person who requests it, under the Missouri Sunshine Law. If a parent, guardian, person acting as a student’s parent in absence of a parent or guardian, or the student (if 18 or older), does not want the district to release the information listed below, they must notify the district in writing within 10 days of receiving this notification of the information they do not want released.

The following “Directory Information” may be released without obtaining parental consent:

Student’s name, parent’s name, address, telephone number, electronic mail address, date and place of birth, grade level, major field of study, enrollment status, participation in officially recognized activities and sports, photographs, weight and height of members of the athletic teams, dates of attendance, degrees, honors, awards received, most recent previous school attended.

The district has determined that the Voluntary Interdistrict Choice Corporation (VICC) and its officers, employees and agents are school officials with legitimate educational interests because they act for and on behalf of the district with respect to transfer students and the transfer program, and because they seek to advance the interest of both. A transfer student’s attendance records and other educational records relevant to the student’s participation in the program or to the program itself may accordingly be disclosed to VICC without obtaining written consent from the parent/guardian or eligible student.

The Executive Director of Student Services has district-wide responsibility for student educational records and, as such, is the custodian of the records. Anyone having questions regarding school policy relating to student records is welcome to contact the Executive Director of Student Services at:

Protection of Pupil Rights Amendment (PPRA)

The Protection of Pupil Rights Amendment (PPRA) (20 U.S.C. § 1232h; 34 CFR Part 98) applies to programs that receive funding from the U.S. Department of Education (ED). PPRA is intended to protect the rights of parents and students in two ways:

1. It seeks to ensure that schools and contractors make instructional materials available for inspection by parents if those materials will be used in connection with an ED-funded survey, analysis, or evaluation in which their children participate; and
2. It seeks to ensure that schools and contractors obtain written parental consent before minor students are required to participate in any ED-funded survey, analysis, or evaluation that reveals information concerning:
 1. Political affiliations;
 2. Mental and psychological problems potentially embarrassing to the student and his/her family;

3. Sex behavior and attitudes;
4. Illegal, anti-social, self-incriminating and demeaning behavior;
5. Critical appraisals of other individuals with whom respondents have close family relationships;
6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers; or
7. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Parents or students who believe their rights under PPRA may have been violated may file a complaint with ED by writing the Family Policy Compliance Office. Complaints must contain specific allegations of fact giving reasonable cause to believe that a violation of PPRA occurred.

Prohibition Against Discrimination, Harassment and Retaliation (KSD Policy AC)

Policy - AC

General Rule

The Kirkwood School District Board of Education is committed to maintaining a workplace and educational environment that is free from discrimination and harassment in admission or access to, or treatment or employment in, its programs, services, activities and facilities. In accordance with law, the district strictly prohibits discrimination and harassment against employees, students or others on the basis of race, color, religion, gender, national origin, ancestry, disability, age, genetic information or any other characteristic protected by law. The Kirkwood School District is an equal opportunity employer.

The Board also prohibits:

1. Retaliatory actions including, but not limited to, acts of intimidation, threats, coercion or discrimination against those who:
 - a) Make complaints of prohibited discrimination or harassment.
 - b) Report prohibited discrimination or harassment.
 - c) Participate in an investigation, formal proceeding or informal resolution, whether conducted internally or outside the district, concerning prohibited discrimination or harassment.
2. Aiding, abetting, inciting, compelling or coercing discrimination, harassment or retaliatory actions.
3. Discrimination, harassment or retaliation against any person because of such person's association with a person protected from discrimination or harassment in accordance with this policy.

All employees, students and visitors must immediately report to the district for investigation any incident or behavior that could constitute discrimination, harassment or retaliation in accordance with this policy. If a student alleges sexual

misconduct on the part of any district employee to any person employed by the district, that person will immediately report the allegation to the Children's Division (CD) of the Department of Social Services in accordance with state law. In accordance with this policy and as allowed by law, the district will investigate and address discrimination, harassment and retaliation that negatively impact the school environment, including instances that occur off district property or are unrelated to the district's activities.

Additional Prohibited Behavior

Behavior that is not unlawful or does not rise to the level of illegal discrimination, harassment or retaliation is still unacceptable for the workplace or the educational environment. Demeaning or otherwise harmful actions are prohibited, particularly if directed at personal characteristics including, but not limited to, socioeconomic level, sexual orientation or perceived sexual orientation.

Boy Scouts of America Equal Access Act

As required by law, the district will provide equal access to district facilities and related benefits and services and will not discriminate against any group officially affiliated with the Boy Scouts of America, the Girl Scouts of the United States of America or any other youth group designated in applicable federal law.

School Nutrition Programs

No person shall, on the basis of race, color, national origin, sex, age or disability, be excluded from participation in, be denied benefits of, or otherwise be subject to discrimination under a school nutrition program for which the district receives federal financial assistance from the U.S. Department of Agriculture (USDA) Food and Nutrition Service. School nutrition programs include the National School Lunch Program, the Special Milk Program, the School Breakfast Program and the Summer Food Service Program.

Interim Measures

When a report is made or the district otherwise learns of potential discrimination, harassment or retaliation, the district will take immediate action to protect the alleged victim, including implementing interim measures. For example, the district may alter a class seating arrangement, provide additional supervision for a student or suspend an employee pending an investigation. The district will take immediate steps to prevent retaliation against the alleged victim, any person associated with the alleged victim, or any witnesses or participants in the investigation. These steps may include, but are not limited to, notifying students, employees and others that they are protected from retaliation, ensuring that they know how to report future complaints, and initiating follow-up contact with the complainant to determine if any additional acts of discrimination, harassment or retaliation have occurred.

Consequences and Remedies

If the district determines that discrimination, harassment or retaliation have occurred, the district will take prompt, effective and appropriate action to address the behavior, prevent its recurrence and remedy its effects.

Employees who violate this policy will be disciplined, up to and including employment termination. Students who violate this policy will be disciplined, which may include suspension or expulsion. Patrons, contractors, visitors or others who violate this policy may be prohibited from district property or otherwise restricted while on district property. The superintendent or designee will contact law enforcement or seek a court order to enforce this policy when necessary or when actions may constitute criminal behavior.

Students, employees and others will not be disciplined for speech in circumstances where it is protected by law.

In accordance with law and district policy, any person suspected of abusing or neglecting a child will be reported immediately to the CD.

Remedies provided by the district will attempt to minimize the burden on the victim. Such remedies may include, but are not limited to: providing additional resources such as counseling, providing access to community services, assisting the victim in filing criminal charges when applicable, moving the perpetrator to a different class or school, providing an escort between classes, or allowing the victim to retake or withdraw from a class. The district may provide additional training to students and employees, make periodic assessments to make sure behavior complies with district policy, or perform a climate check to assess the environment in the district.

Definitions

Compliance Officer – The individual responsible for implementing this policy, including the acting compliance officer when he or she is performing duties of the compliance officer.

Discrimination – Conferring benefits upon, refusing or denying benefits to, or providing differential treatment to a person or class of persons in violation of law based on race, color, religion, gender, national origin, ancestry, disability, age, genetic information or any other characteristic protected by law, or based on a belief that such a characteristic exists.

Grievance – A verbal or written report (also known as a complaint) of discrimination, harassment or retaliation made to the compliance officer.

Harassment – A form of discrimination, as defined above, that occurs when the school or work environment becomes permeated with intimidation, ridicule or insult that is sufficiently severe or pervasive enough that it unreasonably alters the employment or educational environment.

Behaviors that could constitute illegal harassment include, but are not limited to, the following acts if based on race, color, religion, gender, national origin, ancestry, disability, age, genetic information or any other characteristic protected by law or based on a belief that such a characteristic exists: graffiti; display of written material, pictures or electronic images; name calling, teasing or taunting; insults, derogatory remarks or slurs; jokes; gestures; threatening, intimidating or hostile acts; physical acts of aggression, assault or violence; theft; or damage to property.

Sexual Harassment – A form of discrimination, as defined above, on the basis of gender. Sexual harassment is unwelcome conduct that occurs when a) benefits or decisions are implicitly or explicitly conditioned upon submission to, or punishment is applied for refusing to comply with, unwelcome sexual advances, requests for sexual favors or conduct of a sexual nature; or b) the school or work environment becomes permeated with intimidation, ridicule or insult that is based on gender or is sexual in nature and that is sufficiently severe or pervasive enough to alter the conditions of participation in the district's programs and activities or the conditions of employment. Sexual harassment may occur between members of the same or opposite sex. The district presumes a student cannot consent to behavior of a sexual nature with an adult regardless of the circumstance.

Behaviors that could constitute sexual harassment include, but are not limited to:

1. Sexual advances and requests or pressure of any kind for sexual favors, activities or contact.
2. Conditioning grades, promotions, rewards or privileges on submission to sexual favors, activities or contact.
3. Punishing or reprimanding persons who refuse to comply with sexual requests, activities or contact.
4. Graffiti, name calling, slurs, jokes, gestures or communications of a sexual nature or based on gender.
5. Physical contact or touching of a sexual nature, including touching of intimate parts and sexually motivated or inappropriate patting, pinching or rubbing.
6. Comments about an individual's body, sexual activity or sexual attractiveness.
7. Physical sexual acts of aggression, assault or violence, including criminal offenses (such as rape, sexual assault or battery, and sexually motivated stalking) against a person's will or when a person is not capable of giving consent due to the person's age, intellectual disability or use of drugs or alcohol.
8. Gender-based harassment and acts of verbal, nonverbal, written, graphic or physical conduct based on sex or sex stereotyping, but not involving conduct of a sexual nature.

Working Days – Days on which the district's business offices are open.

Compliance Officer

The Board designates the following individual to act as the district's compliance officer:

Chief Human Resources Officer
Kirkwood R-VII School District
11289 Manchester Rd.
Kirkwood, MO 63122-1122
Phone: 314-213-6100
Fax: 314-213-6190
cindi.nelson@kirkwoodschools.org

In the event the compliance officer is unavailable or is the subject of a report that would otherwise be made to the compliance officer, reports should instead be directed to the acting compliance officer:

Superintendent of Schools
Kirkwood School District R-VII
11289 Manchester Rd.
Kirkwood, MO 63122-1122
Phone: 314-213-6100
Fax: 314-213-6190
michele.condon@kirkwoodschools.org

The compliance officer or acting compliance officer will:

1. Coordinate district compliance with this policy and the law.

2. Receive all grievances regarding discrimination, harassment and retaliation in the Kirkwood R-VII School District.
3. Serve as the district's designated Title IX, Section 504 and Americans with Disabilities Act (ADA) coordinator, as well as the contact person for compliance with other discrimination laws.
4. Investigate or assign persons to investigate grievances; monitor the status of grievances to ensure that additional discrimination, harassment and retaliation do not occur; and recommend consequences.
5. Review all evidence brought in disciplinary matters to determine whether additional remedies are available, such as separating students in the school environment.
6. Determine whether district employees with knowledge of discrimination, harassment or retaliation failed to carry out their reporting duties and recommend disciplinary action, if necessary.
7. Communicate regularly with the district's law enforcement unit to determine whether any reported crimes constitute potential discrimination, harassment or retaliation.
8. Oversee discrimination, harassment or retaliation grievances, including identifying and addressing any patterns or systemic problems and reporting such problems and patterns to the superintendent or the Board.
9. Seek legal advice when necessary to enforce this policy.
10. Report to the superintendent and the Board aggregate information regarding the number and frequency of grievances and compliance with this policy.
11. Make recommendations regarding changing this policy or the implementation of this policy.
12. Coordinate and institute training programs for district staff and supervisors as necessary to meet the goals of this policy, including instruction in recognizing behavior that constitutes discrimination, harassment and retaliation.
13. Periodically review student discipline records to determine whether disciplinary consequences are applied uniformly.
14. Perform other duties as assigned by the superintendent.

Public Notice

The superintendent or designee will continuously publicize the district's policy prohibiting discrimination, harassment and retaliation and disseminate information on how to report discrimination, harassment and retaliation. Notification of the district's policy will be posted in a public area of each building used for instruction or employment or open to the public. Information will also be distributed annually to employees, parents/guardians and students as well as to newly enrolled students and newly hired employees. District bulletins, catalogs, application forms, recruitment material and the district's website will include a statement that the Kirkwood School District does not discriminate in its programs, services, activities, facilities or with regard to employment. The district will provide information in alternative formats when necessary to accommodate persons with disabilities.

Reporting

Students, employees and others may attempt to resolve minor issues by addressing concerns directly to the person alleged to have violated this policy, but they are not expected or required to do so. Any attempts to voluntarily resolve a grievance will not delay the investigation once a report has been made to the district.

Unless the concern is otherwise voluntarily resolved, all persons must report incidents that might constitute discrimination, harassment or retaliation directly to the compliance officer or acting compliance officer. All district employees will instruct all persons seeking to make a grievance to communicate directly with the compliance officer. Even if the suspected victim of discrimination, harassment or retaliation does not file a grievance, district employees are required to report to the compliance officer any observations, rumors or other information regarding actions prohibited by this policy. If a verbal grievance is made, the person will be asked to submit a written complaint to the compliance officer or acting compliance officer. If a person refuses or is unable to submit a written complaint, the compliance officer will summarize the verbal complaint in writing. A grievance is not needed for the district to take action upon finding a violation of law, district policy or district expectations.

Even if a grievance is not directly filed, if the compliance officer otherwise learns about possible discrimination, harassment or retaliation, including violence, the district will conduct a prompt, impartial, adequate, reliable and thorough investigation to determine whether unlawful conduct occurred and will implement the appropriate interim measures if necessary.

Student-on-Student Harassment

Building-level administrators are in a unique position to identify and address discrimination, harassment and retaliation between students, particularly when behaviors are reported through the normal disciplinary process and not through a grievance. Administrators have the ability to immediately discipline a student for prohibited behavior in accordance with the district's discipline policy. Administrators will report all incidents of discrimination, harassment

and retaliation to the compliance officer and will direct the parent/guardian and student to the compliance officer for further assistance. The compliance officer may determine that the incident has been appropriately addressed or recommend additional action. When a grievance is filed, the investigation and complaint process detailed below will be used.

Investigation

The district will immediately investigate all grievances. All persons are required to cooperate fully in the investigation. The district compliance officer or other designated investigator may utilize an attorney or other professionals to conduct the investigation.

In determining whether alleged conduct constitutes discrimination, harassment or retaliation, the district will consider the surrounding circumstances, the nature of the behavior, the relationships between the parties involved, past incidents, the context in which the alleged incidents occurred and all other relevant information. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all of the facts and surrounding circumstances. If, after investigation, school officials determine that it is more likely than not (the preponderance of the evidence standard) that discrimination, harassment or other prohibited behavior has occurred, the district will take immediate corrective action.

Grievance Process Overview

1. If a person designated to hear a grievance or appeal is the subject of the grievance, the compliance officer may designate an alternative person to hear the grievance, or the next highest step in the grievance process will be used. For example, if the grievance involves the superintendent, the compliance officer may designate someone outside the district to hear the grievance in lieu of the superintendent, or the grievance may be heard directly by the Board.
2. An extension of the investigation and reporting deadlines may be warranted if extenuating circumstances exist as determined by the district's compliance officer. The person filing the complaint will be notified when deadlines are extended. If more than twice the allotted time has expired without a response, the appeal may be taken to the next level.
3. Failure of the person filing the grievance to appeal within the timelines given will be considered acceptance of the findings and remedial action taken.
4. To the extent permitted by law, the district will investigate all grievances, even if an outside enforcing agency such as the Office for Civil Rights, law enforcement or the CD is also investigating a complaint arising from the same circumstances.
5. The district will only share information regarding an individually identifiable student or employee with the person filing the grievance or other persons if allowed by law and in accordance with Board policy.
6. Upon receiving a grievance, district administrators or supervisors, after consultation with the compliance officer, will implement interim measures as described in this policy if necessary to prevent further potential discrimination, harassment or retaliation during the pending investigation.

Grievance Process

1. **Level I** – A grievance is filed with the district's compliance officer. The compliance officer may, at his or her discretion, assign a school principal or other appropriate supervisor to conduct the investigation when appropriate.

Regardless of who investigates the grievance, an investigation will commence immediately, but no later than five working days after the compliance officer receives the grievance. The compliance officer or designee shall conduct a prompt, impartial, adequate, reliable and thorough investigation, including the opportunity for the person filing the grievance and other parties involved to identify witnesses and provide information and other evidence. The compliance officer or designee will evaluate all relevant information and documentation relating to the grievance.

Within 30 working days of receiving the grievance, the compliance officer will complete a written report that summarizes the facts and makes conclusions on whether the facts constitute a violation of this policy based on the appropriate legal standards. If a violation of this policy is found, the compliance officer will recommend corrective action to the superintendent to address the discrimination, harassment or retaliation; prevent recurrence; and remedy its effects. If someone other than the compliance officer conducts the investigation, the compliance officer or acting compliance officer will review and sign the report. The person who filed the grievance, the victim if someone other than the victim filed the grievance, and any alleged perpetrator will be notified in writing, within five working days of the completion of the report, in accordance with law and district

policy, regarding whether the district's compliance officer or designee determined that district policy was violated.

2. **Level II** – Within five working days after receiving the Level I decision, the person filing the grievance, the victim if someone other than the victim filed the grievance, or any alleged perpetrator may appeal the compliance officer's decision to the superintendent by notifying the superintendent in writing. The superintendent may, at his or her discretion, designate another person (other than the compliance officer) to review the matter when appropriate.

Within ten working days, the superintendent will complete a written decision on the appeal, stating whether a violation of this policy is found and, if so, stating what corrective actions will be implemented. If someone other than the superintendent conducts the appeal, the superintendent will review and sign the report before it is given to the person appealing. A copy of the appeal and decision will be given to the compliance officer or acting compliance officer. The person who initially filed the grievance, the victim if someone other than the victim filed the grievance, and any alleged perpetrator will be notified in writing, within five working days of the superintendent's decision, regarding whether the superintendent or designee determined that district policy was violated.

3. **Level III** – Within five working days after receiving the Level II decision, the person filing the grievance, the victim if someone other than the victim filed the grievance, or any alleged perpetrator may appeal the superintendent's decision to the Board by notifying the Board secretary in writing. The person filing the grievance and the alleged perpetrator will be allowed to address the Board, and the Board may call for the presence of such other persons deemed necessary. The Board will issue a decision within 30 working days for implementation by the administration. The Board secretary will give the compliance officer or acting compliance officer a copy of the appeal and decision. The person who filed the grievance, the victim if someone other than the victim filed the grievance, and the alleged perpetrator will be notified in writing, within five working days of the Board's decision, in accordance with law and district policy, regarding whether the Board determined that district policy was violated. The decision of the Board is final.

Confidentiality and Records

To the extent permitted by law and in accordance with Board policy, the district will keep confidential the identity of the person filing a grievance and any grievance or other document that is generated or received pertaining to grievances. Information may be disclosed if necessary to further the investigation, appeal or resolution of a grievance, or if necessary to carry out disciplinary measures. The district will disclose information to the district's attorney, law enforcement, the CD and others when necessary to enforce this policy or when required by law. In implementing this policy, the district will comply with state and federal laws regarding the confidentiality of student and employee records. Information regarding any resulting employee or student disciplinary action will be maintained and released in the same manner as any other disciplinary record. The district will keep any documentation created in investigating the complaint including, but not limited to, documentation considered when making any conclusions, in accordance with the Missouri Secretary of State's retention manuals and as advised by the district's attorney.

Training

The district will provide training to employees on identifying and reporting acts that may constitute discrimination, harassment or retaliation. The district will instruct employees to make all complaints to the district's compliance officer or acting compliance officer and will provide current contact information for these persons. The district will inform employees of the consequences of violating this policy and the remedies the district may use to rectify policy violations. All employees will have access to the district's current policy, required notices and complaint forms. The district will provide additional training to any person responsible for investigating potential discrimination, harassment or retaliation.

The district will provide information to parents/guardians and students regarding this policy and will provide age-appropriate instruction to students.

Reproduction of Copyrighted Materials (KSD Policy EGAAA)

Policy - EGAAA

It is the intent of the Board to abide by the provisions of current copyright and intellectual property laws as they affect the school district and its employees. The superintendent or designee will create procedures to train employees on the law and monitor district compliance.

Copyrighted materials, whether they are print or nonprint, will not be duplicated, reproduced, distributed or displayed for district-sponsored activities or by using district equipment except in accordance with law.

Details about "fair use" and other relevant information regarding copyright law will be made available to all employees. A summary of these standards will be posted or otherwise made easily available at each machine used for making copies.

The Board does not sanction or condone illegal duplication, reproduction or distribution in any form. It is the responsibility of all district staff to notify the superintendent or designee of any potential violation of law or policy. Technology Usage (KSD Policy EHB)

[Policy – EHB](#)

The Kirkwood R-VII School District's technology exists for the purpose of enhancing the educational opportunities and achievement of district students. Research shows that students who have access to technology improve achievement. In addition, technology assists with the professional enrichment of the staff and increases engagement of students' families and other patrons of the district, all of which positively impact student achievement. The district will periodically conduct a technology census to ensure that instructional resources and equipment that support and extend the curriculum are readily available to teachers and students.

The purpose of this policy is to facilitate access to district technology and to create a safe environment in which to use that technology. Because technology changes rapidly and employees and students need immediate guidance, the superintendent or designee is directed to create procedures to implement this policy and to regularly review those procedures to ensure they are current.

Definitions

For the purposes of this policy and related procedures and forms, the following terms are defined:

Technology Resources – Technologies, devices and services used to access, process, store or communicate information. This definition includes, but is not limited to: computers; modems; printers; scanners; fax machines and transmissions; telephonic equipment; mobile phones; audio-visual equipment; Internet; electronic mail (e-mail); electronic communications devices and services, including wireless access; multi-media resources; hardware; and software. Technology resources may include technologies, devices and services provided to the district by a third party.

User – Any person who is permitted by the district to utilize any portion of the district's technology resources including, but not limited to, students, employees, School Board members and agents of the school district.

User Identification (ID) – Any identifier that would allow a user access to the district's technology resources or to any program including, but not limited to, e-mail, intranet and Internet access.

Password – A unique word, phrase or combination of alphabetic, numeric and non-alphanumeric characters used to authenticate a user ID as belonging to a user.

Authorized Users

The district's technology resources may be used by authorized students, employees, School Board members and other persons approved by the superintendent or designee, such as consultants, legal counsel and independent contractors. All users must agree to follow the district's policies and procedures and sign or electronically consent to the district's User Agreement prior to accessing or using district technology resources, unless excused by the superintendent or designee.

Use of the district's technology resources is a privilege, not a right. No potential user will be given an ID, password or other access to district technology if he or she is considered a security risk by the superintendent or designee.

User Privacy

A user does not have a legal expectation of privacy in the user's electronic communications or other activities involving the district's technology resources including, but not limited to, voice mail, telecommunications, e-mail and access to the intranet, Internet or network drives. By using the district's network and technology resources, all users consent to having their electronic communications and all other use monitored by the district. A user ID with e-mail access will only be provided to authorized users on condition that the user consents to interception of or access to all communications accessed, sent, received or stored using district technology.

Electronic communications, downloaded material and all data stored on the district's technology resources, including files deleted from a user's account, may be intercepted, accessed, monitored or searched by district administrators or their designees at any time in the regular course of business. Such access may include, but is not limited to, verifying that users are complying with district policies and rules and investigating potential misconduct. Any such search, access or interception shall comply with all applicable laws. Users are required to return district technology resources to the district upon demand including, but not limited to, mobile phones, laptops and tablets.

Technology Administration

The Board directs the superintendent or designee to assign trained personnel to maintain the district's technology in a manner that will protect the district from liability and will protect confidential student and employee information retained on or accessible through district technology resources.

Administrators of district technology resources may suspend access to and/or availability of the district's technology resources to diagnose and investigate network problems or potential violations of the law or district policies and procedures. All district technology resources are considered district property. The district may remove, change or exchange hardware or other technology between buildings, classrooms or users at any time without prior notice. Authorized district personnel may install or remove programs or information, install equipment, upgrade any system or enter any system at any time.

Content Filtering and Monitoring

The district will monitor the online activities of minors and operate a technology protection measure ("content filter") on the network and all district technology with Internet access, as required by law. In accordance with law, the content filter will be used to protect against access to visual depictions that are obscene, harmful to minors, or are child pornography. Content filters are not foolproof, and the district cannot guarantee that users will never be able to access offensive materials using district equipment. Evading or disabling, or attempting to evade or disable, a content filter installed by the district is prohibited.

The superintendent, designee or the district's technology administrator may fully or partially disable the district's content filter to enable access for a non-student user for bona fide research or other lawful purposes. In making

decisions to fully or partially disable the district's content filter, the administrator shall consider whether the use will serve a legitimate educational purpose or otherwise benefit the district.

The superintendent or designee will create a procedure that allows students, employees or other users to request that the district review or adjust the content filter to allow access to a website or specific content.

Online Safety, Security and Confidentiality

In addition to the use of a content filter, the district will take measures to prevent minors from using district technology to access inappropriate matter or materials harmful to minors on the Internet. Such measures shall include, but are not limited to, supervising and monitoring student technology use, careful planning when using technology in the curriculum, and instruction on appropriate materials. The superintendent, designee and/or the district's technology administrator will develop procedures to provide users guidance on which materials and uses are inappropriate, including network etiquette guidelines.

All students will be instructed on safety and security issues, including appropriate online behavior and the dangers of sharing personal information about themselves or others when using e-mail, social media, chat rooms or other forms of direct electronic communication. This instruction will occur in the district's computer courses, courses in which students are introduced to the computer and the Internet, or courses that use the Internet in instruction. Students are required to follow all district rules when using district technology resources and are prohibited from sharing personal information online unless authorized by the district.

All district employees must abide by state and federal law and Board policies and procedures when using district technology resources to communicate information about personally identifiable students to prevent unlawful disclosure of student information or records.

All users are prohibited from using district technology to gain unauthorized access to a technology system or information; connect to other systems in evasion of the physical limitations of the remote system; copy district files without authorization; interfere with the ability of others to utilize technology; secure a higher level of privilege without authorization; introduce computer viruses, hacking tools, or other disruptive/destructive programs onto district technology; or evade or disable a content filter.

Closed Forum

The district's technology resources are not a public forum for expression of any kind and are to be considered a closed forum to the extent allowed by law. The district's webpage will provide information about the school district, but will not be used as an open forum.

All expressive activities involving district technology resources that students, parents/guardians and members of the public might reasonably perceive to bear the imprimatur of the district and that are designed to impart particular knowledge or skills to student participants and audiences are considered curricular publications. All curricular publications are subject to reasonable prior restraint, editing and deletion on behalf of the school district for legitimate pedagogical reasons. All other expressive activities involving the district's technology are subject to reasonable prior restraint and subject matter restrictions as allowed by law and Board policies.

Inventory and Disposal

The district will regularly inventory all district technology resources in accordance with the district's policies on inventory management. Technology resources that are no longer needed will be disposed of in accordance with law and district policies and procedures related to disposal of surplus property.

Violations of Technology Usage Policies and Procedures

Use of technology resources in a disruptive, inappropriate or illegal manner impairs the district's mission, squanders resources and shall not be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to the district's technology resources. Any violation of district policies or procedures regarding technology usage may result in temporary, long-term or permanent suspension of user privileges. User privileges may be suspended pending investigation into the use of the district's technology resources.

Employees may be disciplined or terminated, and students suspended or expelled, for violating the district's technology policies and procedures. Any attempted violation of the district's technology policies or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation. The district will cooperate with law enforcement in investigating any unlawful use of the district's technology resources.

Damages

All damages incurred by the district due to a user's intentional or negligent misuse of the district's technology resources, including loss of property and staff time, will be charged to the user. District administrators have the authority to sign any criminal complaint regarding damage to district technology.

No Warranty/No Endorsement

The district makes no warranties of any kind, whether expressed or implied, for the services, products or access it provides. The district's technology resources are available on an "as is, as available" basis. The district is not responsible for loss of data, delays, nondeliveries, misdeliveries or service interruptions. The district does not endorse the content nor guarantee the accuracy or quality of information obtained using the district's technology resources.

**Parents and Family Involvement and Engagement
(KSD Policy IGBC)**

[Policy - IGBC](#)

The Kirkwood School District Board of Education believes that engaging parents and families in the education process is essential to improved academic success for students. The Board recognizes that a student's education is a responsibility shared by the district, parents, families and other members of the community.

For the purposes of this policy, "parent" means a parent, guardian or person acting as a parent in the absence of the parent.

Missouri Parent and Family Involvement and Engagement Goals

The Board of Education recognizes the importance of both eliminating barriers that impede parent and family involvement and facilitating an environment that encourages collaboration with parents, families and other members of the community. Therefore, the district, pursuant to state law and in collaboration with the State Board of Education, education personnel, local associations, and organizations of parents of district students, will develop and implement a policy to facilitate parent and family involvement and engagement that shall include the following six goals:

1. Promote regular, two-way, meaningful communication between home and school.
2. Promote and support responsible parenting.
3. Recognize the fact that parents and families play an integral role in assisting their children to learn.
4. Promote a safe and open atmosphere for parents and families to visit the schools their children attend, and actively solicit parent and family support and assistance for school programs.
5. Include parents as full partners in decisions affecting their children and families.
6. Use available community resources to strengthen and promote school programs, family practices and the achievement of students.

Title I Program Parent and Family Involvement and Engagement

District Policy

The district and parents and family members of students participating in the Title I Part A program will jointly develop and agree upon a written parent and family involvement and engagement policy for the district that will establish the district's expectations and objectives for meaningful parent and family involvement and describe how the district will:

1. Involve parents and family members in the joint development of the Title I program plan. Parents and family members will also be involved in the development of support and improvement plans as required by law.
2. Provide the coordination, technical assistance and other support necessary to assist and build the capacity for all Title I schools in planning and implementing effective parent and family involvement and engagement activities to improve student academic achievement and school performance, which may include meaningful consultation with employers, business leaders and philanthropic organizations or individuals with expertise in effectively engaging parents and family members in education.
3. Coordinate and integrate Title I parent and family involvement and engagement strategies, to the extent feasible and appropriate, with other federal, state and local laws and programs.
4. Conduct, with the meaningful involvement of parents and family members, an annual evaluation of the content of the parent and family involvement and engagement policy and its effectiveness in improving the academic quality of the schools served. The district will use the findings of the evaluation to design strategies for more effective parent and family involvement and engagement and to revise, if necessary, the parent and family involvement and engagement policies. The evaluation will include identifying:
 - Barriers to greater participation by parents in activities authorized by law, particularly by parents who are economically disadvantaged, have disabilities, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background.
 - The needs of parents and family members to assist with their students' learning, including engagement with school personnel and teachers.
 - Strategies to support successful school and family interactions.
5. Involve parents in the activities of the schools served, which may include establishing a parent advisory board composed of parents and family members who adequately represent the needs of the population served by the district. If created, the parent advisory board would be tasked with developing, reviewing and revising this policy.

School Policy

Each school receiving Title I Part A funds and the parents and families of the students in the school will jointly develop and agree upon a written parent and family involvement and engagement policy for the school. In accordance with the requirements of federal law:

1. The policy must be made available to the local community and distributed to parents in an understandable and uniform format. To the extent practicable, the policy shall be provided in a language the parents understand.
2. The policy shall be reviewed annually and updated as needed to meet the changing needs of the parents, families and school.

Each school participating in the Title I Part A program will:

1. Convene an annual meeting, at a convenient time, to which all parents of participating students will be invited and encouraged to attend. The purpose of the meeting is to inform parents about the school's involvement in the Title I program, the requirements of Title I and the right of parents to be involved. The school will offer a flexible number of meetings, such as meetings in the morning or evening, and may provide transportation, childcare or home visits as those services relate to parent involvement.
2. Involve parents in an organized, ongoing and timely way in the planning, review and improvement of Title I Part A programs, including the parent and family involvement and engagement policy and the joint development of a schoolwide program plan. The schoolwide plan will include both positive and negative comments on the Title I Part A program from parents of participating students.
3. Provide parents of participating students:
 - Timely information about Title I programs.
 - A description and explanation of the curriculum.
 - The forms of academic assessment used to measure student progress.
 - The achievement levels of the Missouri Learning Standards (MLS).
 - Opportunities, if requested by parents, for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children.
 - Timely responses to suggestions.
4. Work jointly with parents of students in the program to develop a school-parent compact that outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which the school and parents will build and develop a partnership to help students achieve the MLS. The compact will:
 - Describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the students served under Title I to meet the MLS.
 - Identify ways in which each parent will be responsible for supporting his or her student's learning, such as monitoring attendance, homework completion, and television watching; volunteering in the student's classroom; and participating, as appropriate, in decisions relating to the education of the student and the positive use of extracurricular time.
 - Address the importance of communication between teachers and parents on an ongoing basis through, at a minimum, parent-teacher conferences in elementary schools at least annually during which the compact shall be discussed as it relates to the individual student's achievement; frequent reports to parents on their student's progress; reasonable access to staff; opportunities to volunteer and participate in their student's class; observation of classroom activities; and ensuring regular, two-way, meaningful communication among family members and school staff that, to the extent practicable, is in a language the family members can understand.

Building Capacity for Involvement

The district and each Title I school will support a partnership among the Title I school, parents and community members and ensure effective involvement and engagement of parents by:

1. Providing parents of students served with assistance in understanding topics such as the MLS, local assessments and the requirements of Title I; how to monitor a student's progress; and how to work with teachers to improve the performance of their student.
2. Providing parents the training and materials necessary to improve their student's achievement, such as literacy and technology use training, including information about the harms of copyright piracy, as appropriate to foster parental involvement and engagement.
3. Educating, with parental assistance, all school personnel on:
 - Valuing parent contributions.
 - Reaching out to and communicating and working with parents as equal partners.
 - Implementing and coordinating parent programs.
 - Building ties between parents and the school.
4. To the extent feasible and appropriate, coordinating and integrating parent involvement and engagement programs and activities with other federal, state and local programs, including public preschool programs, and conducting other activities, such as parent resource centers, to encourage and support parents in more fully participating in the education of their student.
5. Ensuring that information related to school and parent programs, meetings and other activities is sent to the parents of Title I students in a format and, to the extent practicable, in a language parents can understand.
6. Providing other reasonable support for parental involvement and engagement activities as parents may request.

Accessibility

To the extent practical, the district must provide opportunities for the informed participation of parents and family members, including parents and family members who have limited English proficiency, parents and family members with disabilities and parents and family members of migratory students. Information and school reports will be provided in a format and, to the extent practicable, in a language the parents understand.

Policy Evaluation

The district and each school receiving Title I funds will, with parent and family involvement, review and evaluate the content and effectiveness of parent and family involvement policies at least annually. The district will use the findings of such evaluation to design strategies for more effective parental involvement and engagement and to revise, if necessary and in collaboration with parents, the parent and family involvement and engagement policies.

English Learner (EL) and Migrant Education Program (MEP) Parent and Family Involvement and Engagement

The Board also recognizes the special importance of parent and family involvement and engagement to the success of its EL and MEP programs. Pursuant to federal law, the district and parents will jointly develop and agree upon a written parental involvement and engagement policy that will be distributed to parents of students participating in any of these programs. The provisions of this policy shall apply to parents and families of EL and migratory students to the same extent as they apply to parents and families of other students.

Involvement for parents and families of students in the EL and MEP programs is addressed in more detail in the policies specific to those programs.

Inspection

Any parent may inspect, upon request, any instructional material used as part of the educational curriculum and all instructional materials, including teachers' manuals, films, tapes, software or other supplementary material, that will be used in connection with any survey, analysis or evaluation as part of any applicable program. Further, a parent may inspect, upon request, a survey created by a third party before the survey is administered or distributed by a school to a student. The term "instructional material" does not include academic tests or academic assessments.

In general, the district will not collect, disclose or use personal student information for the purpose of marketing or selling that information or otherwise providing the information to others for that purpose. In the rare case where the district may collect information from students for the purpose of marketing or selling that information, parents may inspect any instrument used before the instrument is administered or distributed to a student, upon request and in accordance with Board policy.

Consent Required

In accordance with law, no student, as part of any program wholly or partially funded by the U.S. Department of Education, shall be required to submit to a survey, analysis or evaluation (hereafter referred to as "protected information survey") that reveals any of the following information without written consent of a parent:

1. Political affiliations or beliefs of the student or the student's parent.
2. Mental or psychological problems of the student or the student's family.
3. Sex behavior or attitudes.
4. Illegal, anti-social, self-incriminating or demeaning behavior.

7. Religious practices, affiliations or beliefs of the student or the student's parent.
8. Income other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program.

Notice and Opportunity to Opt Out

In accordance with law, parents will receive prior notice and an opportunity to opt a student out of:

1. Any other protected information survey, as defined above, regardless of the funding source.
2. Any nonemergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent and not necessary to protect the immediate health and safety of a student, or any physical exam or screening permitted or required under state law, except for hearing, vision or scoliosis screenings.
3. Activities involving the collection, disclosure or use of personal information obtained from students for marketing, selling or otherwise distributing information to others.

The district will directly notify parents at the beginning of the school year of the specific or approximate dates during the school year when the above-listed activities will occur or are expected to be scheduled.

Notification of Policy and Privacy

In accordance with law, parents will be directly notified of this policy at least annually at the beginning of the school year and within a reasonable period of time after any substantive change in the policy.

The district will take measures to protect the identification and privacy of the students participating in a protected information survey, regardless of the source of funding. These measures may include limiting access to the completed surveys and the survey results as allowed by law. All student educational records will be protected in accordance with law and Board policy JO.

The provisions of this policy applicable to parents will transfer to a student who is 18 years old or emancipated.

Audio and Visual Recording (KSD Policy KKB)

[Policy – KKB](#)

Because the district predominantly serves minors, is subject to a number of confidentiality laws, respects parent/guardian and community concerns about privacy, and seeks to minimize disruption to the education environment, the district prohibits audio and visual recordings on district property, district transportation or at a district activity unless authorized in this policy.

Any recording activity, even activity permitted under this policy, will be prohibited if the activity creates a disruption to the education environment. No recording equipment will be used or placed in areas of the building where the occupant would have a reasonable expectation of privacy, such as restroom facilities or locker rooms.

Definitions

Audio Recording – Registering sounds on tape, digitally or by other mechanical or electronic means.

Outside Entity – Any individual, group, organization or corporation other than the administration, officers, staff or students of the Kirkwood School District or individuals authorized to act for the district.

Visual Recording – Registering visual images on film, tape, digitally or by other mechanical or electronic means.

Recording by Outside Entities

The Kirkwood School District prohibits the use of visual or audio recording equipment on district property or at district activities by outside entities without permission from the superintendent or designee unless otherwise authorized by law. This prohibition shall not apply to:

1. Performances or activities to which the general public is invited such as athletic competitions, concerts and plays.
2. Recording of staff for the sole purpose of professional training or development.
3. Open meetings of the Kirkwood School District Board of Education or committees appointed by or at the direction of the Board.
4. Recording of an event sponsored by an outside entity using or renting district facilities in accordance with Board policies and established administrative procedures.

Recording by District Personnel or District Agents

The district or designated agents of the district may make audio or visual recordings to provide security, to maintain order, for professional staff development use, for educational purposes or for other purposes related to furthering the educational mission of the district. This may include the use of visual recording equipment in district buildings and on district transportation. Recordings by or on behalf of district personnel that include students will be considered student records and will be maintained in accordance with the Family Educational Rights and Privacy Act (FERPA) and other applicable laws.

Pre-Service and Student Teachers

The district may allow student teachers or pre-service teachers to record themselves teaching or otherwise interacting with students when the recording is used for educational purposes in the student teacher or pre-service teacher preparation program. The student teacher or pre-service teacher must obtain permission to do so from the cooperating teacher and the building principal and must have signed Missouri Pre-Service Teacher Assessment permission forms from all students and adults who will appear in the recordings if those recordings will be viewed by any person who is not employed by the district. The district reserves the right to refuse to allow recording or to limit the time and place for such recordings in order to minimize disruption to the educational process.

Recording by Students

The Kirkwood School District prohibits the use of visual or audio recording equipment on district property or at district activities by students except:

1. If required by a district-sponsored class or activity.
2. At performances or activities to which the general public is invited, such as athletic competitions, concerts and plays.
3. At open meetings of the Board of Education or committees appointed by or at the direction of the Board.
4. As otherwise permitted by the building principal.

Recording of Meetings

The Board of Education prohibits the use of audio, visual or other recording devices at meetings held pursuant to the Individuals with Disabilities Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973, as well as other meetings among district employees and between district employees and parents/guardians. Exceptions to this prohibition will be made only in accordance with Board policy and law. Requests for such exceptions must be made within a reasonable period of time prior to the scheduled meetings. This prohibition does not apply to conversations held within view of district security cameras.

Secretive Recording or Transmission

The district prohibits secretive recordings where persons involved do not consent to the recording and it is not otherwise obvious that recording equipment is present or being used, unless the superintendent or designee determines in rare circumstances that such recordings are necessary for educational or security reasons. The district prohibits the simultaneous electronic transmission of any conversation by any person to a third party without the consent of all involved in the conversation, even if the conversation is not recorded.

Use of Unmanned Aircraft Systems

All unmanned aircraft systems (UAS) operators seeking to operate a UAS on or over district property or at a district event must receive authorization from the superintendent or designee. Authorization will be granted only when such operation is on behalf of the district, supports the mission of the district or otherwise serves a public purpose. All UAS with the potential to capture or produce visual images of district property or district events must be operated in accordance with applicable Federal Aviation Administration regulations or safety guidelines.

Public Concerns and Complaints (KSD Policy KL)

[Policy KL](#)

The Kirkwood School District is interested in resolving concerns and hearing complaints from the public regarding district programs and services so that they may be improved and better meet the needs of the students and the community.

The district encourages parents/guardians, students and other members of the public to first discuss concerns with the appropriate district staff prior to bringing the issue to the Board so that the issue may be thoroughly investigated and addressed in a timely fashion. The Board will not act on an issue without input from the appropriate district staff and may require a parent/guardian, patron or student to meet with or discuss an issue with district staff prior to hearing a complaint or making a decision on the matter.

All district employees are expected to answer questions, receive input and professionally address concerns and complaints of parents/guardians, students and other members of the public. If an employee is unable to answer a question or resolve an issue, the employee must direct the person or the question to the appropriate district employee.

Complaint Process

Complaints regarding district compliance with nondiscrimination laws will be processed according to policy AC. Employee grievances will be processed in accordance with the established employee grievance procedure or as otherwise required by law. Complaints involving federal programs will be processed in accordance with policy KLA. Other grievances or complaints for which there is a specific policy or procedure will be addressed pursuant to that policy or procedure. If no other policy or procedure applies, the complaint may be brought as described below.

Process for Resolving a Concern or Complaint

The following steps are to be followed by parents/guardians, students or the public when concerns or complaints arise regarding the operation of the school district that cannot be addressed through other established policies or procedures.

1. Concerns or complaints should first be addressed to the teacher or employee directly involved.
2. Unsettled matters from (1) above or concerns or complaints regarding individual schools should be presented in writing to the principal of the school. The principal will provide a written response to the individual raising the concern ("complainant") within five business days of receiving the complaint or concern unless additional time is necessary to investigate or extenuating circumstances exist.
3. Unsettled matters from (2) above or concerns or complaints regarding the school district in general should be presented in writing to the appropriate assistant superintendent. The assistant superintendent will provide a written response to the complainant within five business days of receiving the concern or complaint, unless additional time is necessary to investigate or extenuating circumstances exist.
4. Unsettled matters from (3) above, or problems and questions concerning the school district, should be presented in writing to the superintendent. The superintendent will provide a written response to the complainant within five business days of receiving the complaint or concern.
5. If the matter cannot be settled satisfactorily by the superintendent, a member of the public may request that the issue be put on the Board agenda, using the process outlined in Board policy. Such requests must be submitted at least seven days in advance of a scheduled meeting of the Board. Written comments submitted to the superintendent or the secretary of the Board that are directed to the Board will be provided to the entire Board. The Board is not obligated to address a complaint. If the Board decides to hear the issue, the Board's decision is final. Otherwise, the superintendent's decision on the issue is final.

If either of the parties involved wishes the hearing to be held in executive session (closed meeting), he or she shall so state in writing. The Board, at its discretion, may grant the request for an executive session if allowed by law.

Anyone wishing more information about how complaints are resolved may contact the Executive Director of Student Services for the Kirkwood School District or the Missouri Department of Elementary and Secondary Education.

Prohibition against Retaliation

The Board strictly prohibits discrimination or retaliation against any person for bringing a concern to the attention of the district or participating in the complaint process. This prohibition extends to relatives and others associated with the person who brought the concern or complaint. The Board directs all district employees to cooperate in investigations of complaints.

Public Concerns and Complaints Regarding Federal Programs (KSD Policy KLA)

[Policy – KLA](#)

The Kirkwood School District receives funds under the federal Elementary and Secondary Education Act (ESEA) and is required to follow federal statutes and regulations regarding the programs governed by the ESEA. If any individual or organization (person) has a complaint or is concerned that the district may be violating these laws, the Board wants the superintendent or designee to immediately investigate and address the issue. For that reason, the Board has adopted this policy to address specific allegations of violations of federal statutes and regulations governing Title I, Parts A, B, C, D; Title II; Title III; Title IV, Part A; or Title V of the ESEA.

Process

The district will use the following process to address specific allegations that the district has violated a federal statute or regulation regarding a program under the ESEA:

1. The person with the complaint ("complainant") must present a written complaint to the superintendent or designee that specifies the federal law or regulation alleged to have been violated and the facts supporting the allegation. Alternatively, the Department of Elementary and Secondary Education (DESE) will forward a complaint from a complainant to the district for resolution.
The superintendent or designee will investigate and provide a written response to the complainant within five business days of receiving the complaint unless additional time is necessary to investigate or extenuating circumstances exist. The superintendent or designee is authorized to contact the district's private attorney for assistance in determining whether a violation has occurred.
2. If the complainant is not satisfied, he or she may request that the issue be placed on the Board agenda at the next Board meeting, using the process outlined in Board policy.
The superintendent or designee will notify the complainant of the Board's decision and will provide the complainant a copy of DESE's Every Student Succeeds Act of 2015 (ESSA) Complaint Procedures.
3. If the Board does not hear the issue or if the complainant is not satisfied with the Board's response, the complainant may appeal the issue to DESE in accordance with DESE's complaint procedures.

Documentation and Release of Information

The district will maintain a copy of the complaint, a written record of the investigation and documentation of any written resolution, when applicable, in accordance with law. The superintendent or designee will complete a written summary of the investigation and, if a violation has occurred, a description of how the matter was resolved. If the complaint was first filed with DESE, the written summary must be completed within 35 calendar days of the complaint being filed with DESE and must be submitted to DESE.

The summary will be released upon request when required by law. The superintendent or designee will have the district's attorney review the documents before they are released to DESE, the complainant or any other person to protect the confidentiality of legal advice.

Prohibition against Retaliation

The Board strictly prohibits discrimination or retaliation against any person for bringing a concern to the attention of the district or participating in the complaint process. This prohibition extends to relatives and others associated with the person who brought the concern or complaint. The Board directs all district employees to cooperate in investigations of complaints.

Use of Tobacco Products and Imitation Tobacco Products (KSD Policy AH)

[Policy - AH](#)

The Board of Education's most important priority is the health, safety and welfare of district students. Given the rising rates of tobacco use among district students and the demonstrated links between tobacco use and disease, the district seeks to provide its students, parents, staff and visitors a tobacco-free environment. The significant, predictable health risks of tobacco use and secondhand smoke exposure are well established, as are the associated costs of tobacco-related disease.

This policy has been formulated to:

1. Provide a clear, concise stipulation that the district is a tobacco-free environment;
2. Reflect and emphasize the hazards of tobacco use;
3. Demonstrate commitment to smoke and tobacco-free environments beyond standards prescribed in § 191.775, RSMo.;
4. Protect the health and safety of all students, employees and the general public; and
5. Set a non-tobacco use example by all adults.

For the purposes of this policy, smoking will mean "possession of burning tobacco in the form of a cigarette, cigar, pipe or other smoking equipment." "Tobacco products" include both smoking and smokeless tobacco items, electronic cigarettes or imitation tobacco or cigarette products.

Tobacco-Free Environment

To support and model a healthy lifestyle for our students, the Board of Education establishes the following tobacco-free policy.

1. All district properties, campuses, vehicles, grounds and any district-sponsored event or activity while off campus are tobacco-free at all times. This includes all days when school is not in session, after-school hours

and all functions taking place on school grounds, such as athletic functions and other activities not associated with or sponsored by the school.

2. Possession, use, sale or transfer of any tobacco products by students on district property, in district vehicles or at school-sponsored functions both on and off district property is prohibited.
3. The use of any tobacco products by any school employee is prohibited on district property and in district vehicles. The use of any tobacco products by any employee is prohibited at school-sponsored functions on district property, and off district property if the employee is acting in his or her official capacity as an employee of the district.
4. The use of any tobacco products by any visitor on district property is prohibited at all times.

Consequences

Students and employees who violate this policy will be disciplined in accordance with applicable Board policies and may be offered referrals to smoking cessation programs. Employees may be terminated for repeated violations. Visitors who violate this policy may be asked to leave or may face other consequences in accordance with district policies and procedures.

General

In order to promote a safe learning environment for all students, the Kirkwood School District prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students.

Definitions

Bullying – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft, or property damage; oral, written, or electronic communication, including name-calling, put-downs, racial slurs, extortion, or threats; or threats of reprisal or retaliation for reporting such acts.

Cyberbullying – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device, computer or pager. The district has jurisdiction over cyberbullying that uses the district's technology resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

School Day – A day on the school calendar when students are required to attend school.

Designated Officials

The principal of each building is hereby designated as the individual to receive and investigate reports of bullying. Each building principal shall designate at least two teachers or administrators in the building who are authorized to receive and investigate reports of bullying in the principal's absence or at the principal's discretion.

The district compliance officer appointed in policy AC will serve as the districtwide antibullying coordinator. The antibullying coordinator will receive all completed investigative reports from all buildings and analyze the reports to identify any information that would inform the district's antidiscrimination and antibullying education and training programs. In addition, the antibullying coordinator will assist in making any relevant reports as required by state and federal law.

Reporting Bullying

School employees, substitutes or volunteers are expected to intervene to prevent student bullying, appropriately discipline the perpetrator, assist the victim and report the incident to the building principal or designee for further investigation and action. Any school employee, substitute or volunteer who witnesses or has firsthand knowledge of bullying of a student must report the incident to the building principal or designee as soon as possible, but no later than two school days after the incident.

Students who have been subjected to bullying, or who have witnessed or have knowledge of bullying, are encouraged to promptly report such incidents to a school employee. Any school employee receiving such a report shall promptly transmit the report to the building principal or designee.

If the bullying incident involves students from more than one district building, the report should be made to the principal or designee of the building in which the incident took place or, if more appropriate, to the principal or designee of the building attended by the majority of the participants in the incident.

Investigation

Within two school days of receiving a report of bullying, the principal or designee will initiate an investigation of the incident. Reports that involve students from multiple buildings will be investigated cooperatively by the principals of each building involved, or those principals may request that the district's compliance officer designated in policy AC

conduct the investigation. If at any time during the investigation the principal determines that the bullying involves illegal discrimination, harassment or retaliation as described in policy AC, the principal will report the incident to the compliance officer designated in that policy, who will assist in the investigation. If the alleged bullying involves a special education student or a student with disabilities, the principal will also notify the special education director.

The investigation shall be completed within ten school days of the date the report of bullying was received unless good cause exists to extend the investigation. Upon completion of the investigation, the principal will decide whether bullying or harassment occurred and, if so, whether additional discipline is warranted in accordance with the district's student discipline code. The principal will generate a written report of the investigation and findings and send a copy of the completed report to the district's antibullying coordinator. The principal or designee will document the report in the files of the victim and the alleged or actual perpetrator of bullying. All reports will be kept confidential in accordance with state and federal law.

If the incident involved allegations of illegal discrimination or harassment, the principal's decision may be appealed in accordance with policy AC. Student discipline may be appealed when allowed by law in accordance with Board policy.

The principal or other appropriate district staff will work with victims and their families to access resources and services to help them deal with any negative effects that resulted from the incident.

Consequences

Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's discipline code. Such discipline may include detention, in-school suspension, out-of-school suspension, expulsion, removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent. The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate.

Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. Such actions may include, but are not limited to, contacting the parents/guardians of the victim and the alleged perpetrators, communicating that this behavior is not allowed on district grounds or at district activities, notifying the appropriate district staff to assist the victim, and taking additional action when appropriate, such as notifying law enforcement or social media companies of inappropriate online activity.

District employees and substitutes who violate this policy will be disciplined or terminated. Discipline may include suspension with or without pay, a negative evaluation, prohibition from being on district property or at district activities, mandated training or other appropriate remedial action. Volunteers who violate this policy will no longer be permitted to volunteer.

Policy Publication

The district shall annually notify students, parents/guardians, district employees, substitutes and volunteers about this policy and the district's prohibition against bullying. A copy of this policy shall be included in student handbooks and posted on the district's website.

Training and Education

The district's antibullying coordinator will provide information and appropriate training designed to assist employees, substitutes and volunteers who have significant contact with students in identifying, preventing and responding to incidents of bullying.

The district will provide education and information about bullying and this policy to students every year. The principal of each school, in consultation with school counselors and other appropriate school employees, will determine the best methods for facilitating the discussion. Methods may include, but are not limited to: assemblies; homeroom presentations; class meetings; team or club meetings; special presentations by counselors, social workers or mental health professionals; and open-house events. When practical, parents/guardians will be invited to attend.

In addition to educating students about the content of this policy, the district will inform students of:

7. The procedure for reporting bullying.
8. The harmful effects of bullying.
9. Any initiatives the school or district has created to address bullying, including student peer-to-peer initiatives.

10. The consequences for those who participate in bullying or engage in reprisal or retaliation against those who report bullying.

School counselors, social workers, mental health professionals, school psychologists or other appropriate district staff will educate students who are victims of bullying about how to overcome the negative effects of bullying including, but not limited to:

1. Cultivating the student's self-worth and self-esteem.
2. Teaching the student to defend him- or herself assertively and effectively without violence.
3. Helping the student develop social skills.
4. Encouraging the student to develop an internal locus of control.

Additional School Programs and Resources

The Board directs the superintendent or designee to implement programs and other initiatives to address bullying, respond to such conduct in a manner that does not stigmatize the victim, and make resources or referrals available to victims of bullying. Such initiatives may include educating parents/guardians and families on bullying prevention and resources.

[Policy JFCG](#)

In order to promote a safe learning environment for all students, the Kirkwood School District prohibits all forms of hazing.

For purposes of this policy, hazing is defined as any activity, on or off school grounds, that a reasonable person believes would negatively impact the mental or physical health or safety of a student or put the student in a ridiculous, humiliating, stressful or disconcerting position for the purposes of initiation, affiliation, admission, membership or maintenance of membership in any group, class, organization, club or athletic team including, but not limited to, a grade level, student organization or district-sponsored activity.

Hazing may include those actions that subject a student to extreme mental stress including, but not limited to, sleep deprivation, physical confinement, forced conduct that could result in extreme embarrassment or criminal activity, or other stress-inducing activities. Hazing may also include, but is not limited to: acts of physical brutality; whipping; beating; branding; exposing to the elements; forcing inhalation or consumption of any food, liquor, drug, tobacco product, or other substance; or any other forced physical activity that could adversely affect the physical health or safety of an individual.

Hazing can occur even when all students involved are willing participants. Hazing does not occur when a student is required to audition or try out for an organization when the criteria are reasonable, approved by the district and legitimately related to the purpose of the organization.

District staff, coaches, sponsors and volunteers will not permit, condone or tolerate any form of hazing or plan, direct, encourage, assist in, engage in or participate in any activity that involves hazing. District staff will report incidents of hazing to the building principal. The principal shall promptly investigate all complaints of hazing and administer appropriate discipline to all individuals who violate this policy. District staff who violate this policy may be disciplined or terminated.

Students participating in or encouraging inappropriate conduct will be disciplined in accordance with JG-R1, JG-R2 or JG-R3. Weapons in School (KSD Policy JFCJ)

[Policy JFCJ](#)

The Board recognizes the importance of preserving a safe educational environment for students, employees and patrons of the district. In order to maintain the safety of the educational community, the district will strictly enforce the necessary disciplinary consequences resulting from the use or possession of weapons on school property. No student may possess a weapon on school property at any time, except as specifically authorized during a school-sponsored or school-sanctioned activity (i.e., theater production, historical display). School-sanctioned use requires that firearms be non-functional and other weapons be modified to reduce the risk of injury.

School property is defined as: Property utilized, supervised, rented, leased, or controlled by the school district including but not limited to school playgrounds, parking lots and school buses, and any property on which any school activity takes place.

A weapon is defined to mean one or more of the following:

1. A firearm as defined in 18 U.S.C. 921.
2. A blackjack, concealable firearm, firearm, firearm silencer, explosive weapon, gas gun, knife (blade of 4 inches or more), knuckles, machine gun, projectile weapon, rifle, shotgun, spring gun, switchblade knife, as these terms are defined in § 571.010, RSMo.
3. A dangerous weapon as defined in 18 U.S.C. § 930(g)(2).
4. All knives and any other instrument or device used or designed to be used to threaten or assault, whether for attack or defense.

5. Any object designed to look like or imitate a device as described in 1-4.

Pursuant to the Missouri Safe Schools Act and the federal Gun-Free Schools Act of 1994, any student who brings or possesses a weapon as defined in #1 or #2 above on school property or at any school activity will be suspended from school for at least one (1) calendar year or expelled and will be referred to the appropriate legal authorities. The suspension or expulsion may be modified on a case-by-case basis upon recommendation by the superintendent to the Board of Education.

Students who bring or possess weapons as defined in #3, #4 and #5 and not otherwise included in #1 and #2, will also be subject to suspension and/or expulsion from school and may be referred to the appropriate legal authorities.

Students with disabilities who violate this policy will be disciplined in accordance with policy JGE.

This policy will be submitted annually to the state Department of Elementary and Secondary Education along with a report indicating any suspensions or expulsions resulting from the possession or use of a firearm as defined in 18 U.S.C. § 921. The report will include the name of the school in which the incidents occurred, the number of students suspended or expelled and the types of weapons involved.

Student Discipline (KSD Policy JG)

[Policy JG](#)

It is essential that the district maintain a classroom environment that allows teachers to communicate effectively with all students in the class and allows all students in the class to learn. To assist district staff in maintaining the necessary classroom environment, the Board of Education has created a discipline code that addresses the consequences, including suspension or expulsion, for students whose conduct is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of other students.

The comprehensive written code of conduct of the district is composed of this policy and includes, but is not limited to, the following policies, procedures and regulations: JG-R1, JG-R2, JG-R3, JGA, JGB, JGD, JGE and JGF. A copy of the district's comprehensive written code of conduct will be distributed to every student and the parents/guardians of every student at the beginning of each school year and will be available in the superintendent's office during normal business hours.

Application

These policies, regulations and procedures will apply to all students in attendance in district instructional and support programs as well as at school-sponsored activities. Off-campus misconduct that adversely affects the educational climate will also be subject to these policies, regulations and procedures. Students who have been charged, convicted or pled guilty in a court of general jurisdiction for commission of a felony may be suspended in accordance with law.

The Board authorizes the immediate removal of a student upon a finding by a principal or superintendent that the student poses a threat of harm to self or others, as evidenced by the prior conduct of such student. Any such removal will be subject to the appropriate due process procedures and in accordance with law.

No student may be confined in an unattended locked space except in an emergency situation while awaiting the arrival of law enforcement personnel. For the purpose of this policy, a student is unattended if no person has visual contact with the student, and a locked space is a space that the student cannot reasonably exit without assistance.

Enforcement

Building principals are responsible for the development of additional regulations and procedures regarding student conduct needed to maintain proper behavior in schools under their supervision. All such regulations and procedures shall be consistent with Board-adopted discipline policies.

Teachers have the authority and responsibility to make and enforce necessary rules for the internal governance in the classroom, subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom. All district staff are required to enforce district policies, regulations and procedures in a manner that is fair and developmentally appropriate and that considers the student and the individual circumstances involved.

All employees of the district shall annually receive instruction related to the specific contents of the district’s discipline policy and any interpretations necessary to implement the provisions of the policy in the course of their duties including, but not limited to, approved methods of dealing with acts of school violence, disciplining students with disabilities, and instruction in the necessity and requirements for confidentiality.

**Student Discipline
(KSD Policy JG-R1)**

[Policy JG-R1](#)

Philosophy of Student Discipline

The role of the Kirkwood School District (KSD) staff is to ensure all students learn in a safe, respectful, effective, nurturing environment. The purpose of discipline is to provide opportunities for students to develop empathy, learn and practice self-regulation skills, and learn pro-social behaviors.

Commitments

1. We believe positive relationships with students and families are essential in establishing an environment of

trust.

2. Discipline must include proactive and preventative practices, as well as reflective, responsive and restorative techniques.
3. Expected behaviors must be taught, reinforced, and addressed consistently, while remaining respectful of each child's needs and developmental level.
4. Because student discipline is directly related to learning, we believe all staff must be equipped to address student behavior in a positive, holistic manner.
5. Ongoing professional development is essential for KSD staff to be responsive to the individual needs of our learners and helps to provide discipline in ways that teach and instill desired behaviors and life skills.
6. In order to maximize learning opportunities, we are committed to reducing the time any student is not included in the classroom.
7. Practices that remove students from the classroom, such as in-school suspension, will be used to provide opportunities for students to reflect, restore relationships and/or make reparations for behaviors.
8. Out-of-school suspension (OSS) is limited to incidents posing a serious and credible threat to the safety of students and/or staff, including incidents where suspension is required by the Safe Schools Act.
9. Minimizing out-of-school suspension is a goal of the Kirkwood School District.

Strategies

We will invest in our staff so they may utilize best practices to each and address student behaviors. Discipline begins with a districtwide/schoolwide approach to identify expected behaviors. Individual behaviors must be addressed as patterns of behavior emerge.

Because of our belief in each child as a learner, we will use strategies such as:

1. Character Education to teach and recognize positive behaviors.
2. Culturally Responsive instruction strategies so each child is respected.
3. Positive Behavior Interventions and Supports (PBIS) to teach, communicate, reinforce and re- teach expected behavior.
4. Restorative Practices to teach empathy and help students make amends to those they have harmed.
5. Trauma Informed Care to ensure we understand the function and motivation behind behavior.
6. Crisis Prevention Intervention (CPI) to de-escalate behavior.
7. Data or PBIS Teams to track, analyze and problem solve around student behavior and incident interventions. The ASSIST process (Problem Solving Teams) will be used to determine motivation/function of behaviors, establish individual plans, and provide the social/emotional supports necessary for success.

All staff must be committed to this philosophy to ensure students are provided consistent expectations regardless of the environment.

Reporting to Law Enforcement

It is the policy of the Kirkwood School District R-VII to report all crimes occurring on district property to law enforcement including, but not limited to, the crimes the district is required to report in accordance with law. A list of crimes the district is required to report is included in policy JGF.

The principal shall also notify the appropriate law enforcement agency and superintendent if a student is discovered to possess a controlled substance or weapon in violation of the district's policy.

In addition, the superintendent or designee shall notify the appropriate division of the juvenile or family court upon suspension for more than ten days or expulsion of any student who the district is aware is under the jurisdiction of the court.

Documentation in Student's Discipline Record

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools and in accordance with law and policy JGF.

Conditions of Suspension, Expulsion and Other Disciplinary Consequences

All students who are suspended or expelled, regardless of the reason, are prohibited from participating in or attending any district-sponsored activity, or being on or near district property or the location of any district activity for any reason, unless permission is granted by the superintendent or designee. When appropriate, the district may prohibit students from participating in activities, awards or honors, or restrict a student's access to district property as a disciplinary consequence even if a student is not suspended or expelled from school. Likewise, a student may become ineligible for or be required to forfeit any honors and awards as a disciplinary consequence.

In accordance with law, any student who is suspended for any offenses listed in § 160.261, RSMo., or any act of violence or drug-related activity defined by policy JGF as a serious violation of school discipline, shall not be allowed to be within 1,000 feet of any district property or any activity of the district, regardless of whether the activity takes place on district property, unless one of the following conditions exist:

1. The student is under the direct supervision of the student's parent, legal guardian, custodian or another adult designated in advance, in writing, to the student's principal by the student's parent, legal guardian or custodian, and the superintendent or designee has authorized the student to be on district property.
2. The student is enrolled in and attending an alternative school that is located within 1,000 feet of a public school in the district.
3. The student resides within 1,000 feet of a public school in the district and is on the property of his or her residence.

If a student violates the prohibitions in this section, he or she may be suspended or expelled in accordance with the offense, "Failure to Meet Conditions of Suspension, Expulsion or Other Disciplinary Consequences."

Impact on Grades

Students will be provided opportunity to complete assigned school work during the duration of any consequence. The assignment of discipline will have no impact on grades unless the student does not complete the assigned work in a reasonable amount of time.

If a student has engaged in academic dishonesty, the student's grade may be impacted.

Standards of Conduct

No code can be expected to list each and every offense that may result in disciplinary action. Any conduct not included herein, an aggravated circumstance of any offense, or an action involving a combination of offenses may result in disciplinary consequences and/or restorative action as determined by the principal, superintendent and/or Board of Education. Repeated infractions could warrant increased disciplinary consequences. For all offenses worthy of an office referral, student conference and parent contact will occur.

Restorative Opportunities

Restorative Reflection (solely with the student)

The student has an opportunity to explain what happened and how his or her behavior affected others. The student then has the opportunity to state how he or she would repair the harm.

3. What have you thought about since?
4. Who has been affected by what you have done? In what way?
