

## **Hough Building (Technology Program)**

### **Life Safety & Security:**

- Eliminate water based sprinkler system from equipment areas.
- Improve security at main entry to eliminate access to entire facility.
- Provide areas for secure receiving and storage of high value equipment on site.
- Provide staging area for prep of equipment prior to deployment to facilities.
- Improve current dock alignments.

### **Learning & Curriculum:**

- Provide improved power / data / internet to all work spaces.
- Potential to divide current training room so multiple events could happen simultaneously.
- Upgrade HVAC system and building envelope insulation/windows.
- Improve storage capacity in lower level areas.

### **Accessibility & Inclusiveness:**

- Provide additional staff accessible restrooms.
